# Medicare Made Clear®

## Medicare eligibility.

### You're eligible for Original Medicare (Parts A and B) if:

You're at least 65 years old, or you're under 65 and qualify on the basis of a disability or other special situation.

### AND

You're a U.S. citizen or a legal resident who has lived in the U.S. for at least 5 consecutive years.

## When can you enroll in a Medicare Advantage or prescription drug plan?

### Initial Enrollment Period

Your Initial Enrollment Period (IEP) is 7 months long. It includes your 65th birthday month plus the 3 months before and the 3 months after. It begins and ends 1 month earlier if your birthday is on the first of the month. You may enroll in Part A, Part B or both. You may also choose to join a Medicare Advantage plan (Part C) or a prescription drug plan (Part D). Prescription drug coverage must be creditable or you may be subject to a late-enrollment penalty when you enroll in a plan with Part D benefits.

### Annual Enrollment Period, October 15 – December 7

During annual enrollment you can add, drop or switch your Medicare coverage.

### Medicare Advantage Open Enrollment Period, January 1 – March 31

If you are already a Medicare Advantage plan member, you may disenroll from your current plan and switch to a different Medicare Advantage plan one time only during this period.

### Special Enrollment Period

Depending on certain circumstances, you may be able to enroll in a Medicare plan outside of the initial enrollment or annual enrollment time frames. Some ways you may qualify for a Special Enrollment Period are if you:

- **Retire** and lose your employer coverage
- **Move** out of the plan's service area
- **Receive assistance** from the state
- Have been **diagnosed with certain qualifying disabilities or chronic health conditions**
- Qualify for **Extra Help**

Special Needs Plans have other eligibility requirements.

## Medicare choices.

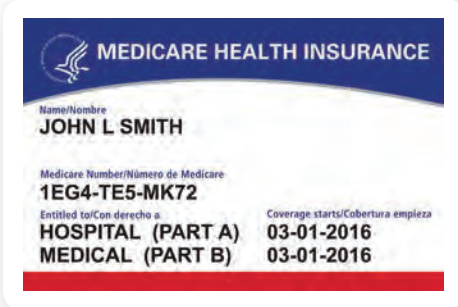

After you enroll in Original Medicare (Parts A and B), there are two ways to get additional coverage.

### STEP 1 Enroll in Original Medicare.

**Original Medicare**  
Provided by the federal government

**PART A** Helps pay for hospital stays and inpatient care

**PART B** Helps pay for doctor visits and outpatient care

### STEP 2 Decide if you need additional coverage. You have two ways to get it.

**OPTION 1** — OR — **OPTION 2**

Add one or both of the following to Original Medicare:

Choose a Medicare Advantage plan:

**Medicare Supplement Insurance (Medigap)**  
Offered by private companies

Helps pay some of the out-of-pocket costs that come with Original Medicare

**Medicare Part D Plan**  
Offered by private companies

Helps pay for prescription drugs

**Medicare Advantage Plan**  
Offered by private companies

**PART C** Combines Part A (hospital insurance) and Part B (medical insurance) in one plan

**PART D** Usually includes prescription drug coverage

May offer additional benefits not provided by Original Medicare

## Are there Medicare Advantage plans for those with special needs?

**Yes.** There are special types of Medicare Advantage plans called Special Needs Plans. These plans include focused and specialized health care coverage for specific groups:

- **Dual-eligible plans** for those with both Medicare and Medicaid
- **Chronic condition plans** for those with certain ongoing medical conditions such as diabetes or a cardiovascular disorder
- **Institutional plans** for those living in a nursing home

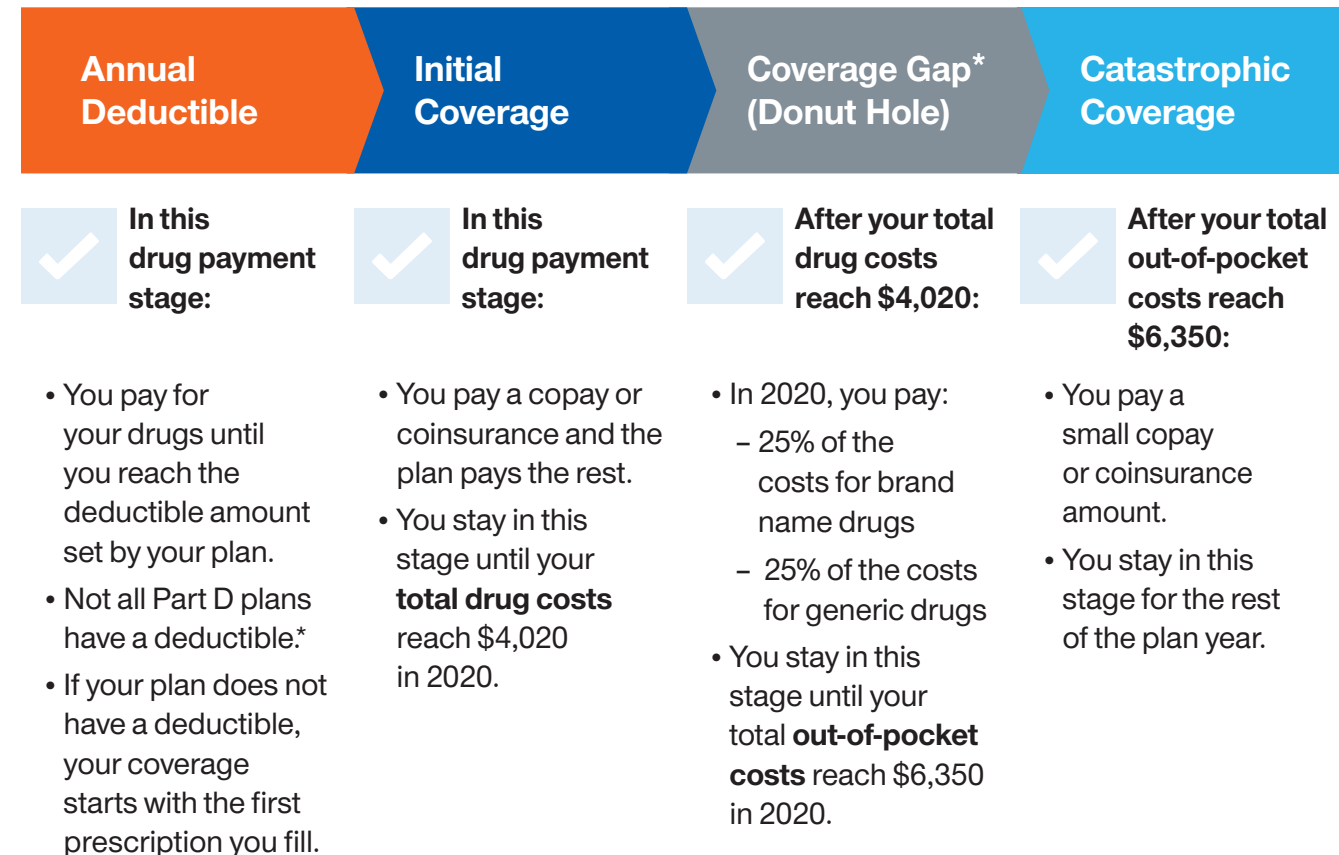

Talk to a sales representative or visit [UHCClarity.com](https://www.uhcclearity.com) if you would like more information regarding Special Needs Plans.

## 10 important things to know about Medicare Advantage.

- 1 You must continue to pay your Medicare Part B premium.** Medicare then gives your premium to your UnitedHealthcare Medicare Advantage plan to help pay for your additional coverage.
- 2 Joining a Medicare Advantage plan may affect your current coverage.** If you have existing coverage or employer-provided health insurance and plan to work past 65, check to see how joining a Medicare Advantage plan could affect or cancel your current coverage.
- 3 It's best to use network providers.** Use of network health care and pharmacy providers is typically required. Using providers outside of the network may cost you more. In an emergency, you can use any provider.
- 4 You may qualify for financial assistance.** Depending on your financial situation, you may qualify for help paying your plan premiums or Part D medications through a low income subsidy or Extra Help.
- 5 If you enroll in Part D late, you may pay a penalty.** This is an additional amount charged by Medicare that will be added to your Part D premium if you go without Part D coverage for longer than 63 days in a row after your Initial Enrollment Period. Medicare Advantage plans that include Part D coverage meet Medicare coverage requirements.
- 6 A Medicare supplement insurance plan (Medigap policy) is not a Medicare Advantage plan.** Medicare supplement plans are health insurance policies and are secondary to Original Medicare. Medicare Advantage plans combine Original Medicare Parts A and B, and sometimes Part D, into a single plan.
- 7 Keep your member ID card handy.** Members must present their UnitedHealthcare member ID card, not their Original Medicare card, when receiving services.
- 8 Medicare Advantage offers the same protections as Original Medicare.** Even though Medicare Advantage plans are privately administered, you still have the same rights and protections as with Original Medicare.
- 9 Medicare Advantage has you covered.** Medicare Advantage plans must cover all the services that Original Medicare covers and may offer additional benefits. Important: Hospice care is still covered under Original Medicare. You may also receive more benefits if you have TRICARE for Life or VA coverage.
- 10 You have a built-in financial safety net.** Your plan's annual out-of-pocket maximum is your safety net that ensures you'll never pay more than a certain amount out of pocket in a given plan year for covered medical services.

# Prescription Drug Coverage

## Understanding Medicare drug payment stages.

\*If you get Extra Help from Medicare on your Part D costs, the Part D deductible and coverage gap do not apply to you.

### Total drug costs:

The amount you pay (or others pay on your behalf) and the plan pays for prescription drugs starting January 2020. This does not include premiums.

### Out-of-pocket costs:

The amount you pay (or others pay on your behalf), including the deductible, for prescription drugs starting January 2020. The out-of-pocket costs also include the discount paid by the drug manufacturers while in the donut hole. This does not include premiums.

Note: On January 1 of each plan year, the coverage cycle starts over and the dollar limits can change. Amounts listed above reflect the 2020 plan year.

## Prescription drug coverage defined.

**Pharmacy network**  
 UnitedHealthcare has more than 65,000 network pharmacies across the country. To receive benefits, you must use an in-network pharmacy and show your UnitedHealthcare member ID card. You may receive additional discounts on your prescriptions by using a preferred retail pharmacy or by using the mail service pharmacy and having your medications delivered to your mailbox.

### Drug list (formulary)

A formulary is a list of the drugs that a plan covers. Each plan has its own drug list.

### Tiered formulary

Many plans use tiered formularies to group covered drugs according to cost. For example:

- **Tier 1** – Preferred generic drugs
- **Tier 2** – Generic drugs
- **Tier 3** – Preferred brand name drugs
- **Tier 4** – Non-preferred drugs
- **Tier 5** – Specialty drugs

### Step therapy

One way UnitedHealthcare can help you save money on your prescriptions is by offering lower-cost drugs that can treat the same medical condition as your current brand name drugs. You may be asked to try one or more of these lower-cost drugs before the plan will cover the brand name drug you are currently taking.

### Quantity limits

Some drugs have quantity limits, where the plan will cover only a certain amount of a drug for one copay or over a certain number of days. The limits may be in place to ensure safe and effective use of the drug. If your doctor prescribes more or thinks the limit is not right for your situation, you and your doctor can ask the plan to cover the additional quantity.

### Prior authorization

Before the plan will cover certain drugs, it may need more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. You may be required to try a different drug before the plan will cover the prescribed drug.

### Asking for an exception

If you need a drug that's not currently covered by your plan, you may:  
 Ask the plan to cover your drug even if it is not on the drug list. This is known as a formulary exception.  
 Ask to waive coverage restrictions or limits on your drug. This is known as a utilization exception.

### Coverage decisions

If your doctor has submitted an exception request on your behalf, generally the plan will make a decision within 72 hours. You can request an expedited, or fast, decision if you or your doctor believes your health requires it.
