GUARANTEE TRUST LIFE MEDICARE SUPPLEMENT UNDERWRITING GUIDE

1. Generally, unless in open enrollment or guarantee issue, acceptance will be based on the answers given on the application, build chart, a drug prescription history check, MIB search and a review of any claims that may have been filed for applicants who have or had a policy with GTL.
2. Applications received during open enrollment will be accepted up to 6 months prior to the effective date.
3. Guarantee issue guidelines are available on our website, www.gtlc.com
4. In some instances, a personal history may be conducted to clarify information. The interviews are conducted by MRS, a telephone vendor, and will be ordered from the Home Office.
5. If a medical report from an attending physician is required, the applicant will have to obtain it at no expense to the Company.
6. If the answer to any of the medical questions on the application is "YES," the applicant does not qualify for coverage (except for open enrollment or guarantee issue).
7. If the applicant is taking any of the medications listed in the Medication List for the condition listed, the applicant does not qualify for coverage.
8. To qualify for preferred rates, the applicant must meet both the preferred build criteria and the criteria of no tobacco use within the last 12 months (including open enrollment and guarantee issue where allowable).
9. If the applicant is a tobacco user, or if the applicant does not fall within the preferred rate build range, but does fall within the standard rate build range, the applicant will qualify for standard rates.
10. If the insured was originally issued standard rates and wishes to re-apply for preferred rates, a new application is required and evidence of insurability must be met. The insured must meet both the preferred build criteria and the criteria of no tobacco use within the past 12 months. Any improvement in weight must be maintained for at least 12 months before applying.
11. A telephone interview will be conducted on an applicant who uses a Power of Attorney to sign the application. If the applicant cannot complete the interview, medical records for the past 2 years will be required at the applicant's expense.
12. Any application over 31 days old will be considered stale-dated and a new currently dated application will be required.

13. For underwritten and guarantee issue applications, the effective date of the policy cannot be greater than 6 months from the application date. Back dating is not permitted.
14. The bank draft date and the effective date cannot be more than 15 days apart.
15. Policies are issued in the residence state of the applicant. Also, the agent must be licensed in the applicant's residence state.
16. The application version must be the residence state of the applicant. Other versions are not acceptable.
17. For internal replacements, any increase in coverage will require a new application and subject to evidence of insurability. This includes policies that were originally issued under open enrollment or guarantee issue or were underwritten. A decrease in coverage will not require a new application and will not be subject to evidence of insurability. However, a new policy will be issued at the insured's attained age.
18. The insured can apply for reinstatement of a lapsed policy within 6 months of lapse, and evidence of insurability is required. For a policy lapsed over 6 months, a new application must be submitted and will be subject to evidence of insurability. If approved, a new policy will be issued at the insured's attained age.
19. Other than the applicant, acceptable payors for the initial and renewal premium are family members. Any other payors such as friends, businesses, or organizations are not acceptable for either the initial or renewal premium.
20. A household resident premium discount will be given if another person 18 years or older resides with the applicant (where applicable).
21. Documents used to support guarantee issue must indicate the applicant's name and start and end of coverage. Generic letters are not acceptable.
22. If list bill is requested, Employer and Applicant Billing agreement forms are required to be completed. Only retired employees (and spouses) will be eligible for list bill.
23. For guarantee issue due to involuntary disenrollment from a Medicare Advantage Plan, submit a copy of the letter that was sent to applicant.
24. For voluntary disenrollment from a Medicare Advantage Plan, please submit proof of the effective date of the policy and the last paid to date.
25. Please refer to the Guarantee Issue and Open Enrollment rules that apply to the applicant's resident state that is posted on the GTL website or contact the Underwriting department.

UNDERWRITING CONSIDERATIONS

- Tobacco means cigarette, pipe, cigar, chewing tobacco, dip, electronic or vapor cigarettes, or other nicotine delivery systems.
- If the applicant currently requires the use of a wheelchair or motorized mobility aid on a daily basis, the person is not eligible for coverage. For conditions such as a broken leg, the applicant is not eligible until the wheelchair or motorized mobility aid is no longer needed.
- With respect to the medical question that asks if the applicant has been advised to have a medical test, the question should be answered YES if the test is meant to diagnose a medical condition. If the test is part of a routine exam (that includes tests as cholesterol, PSA, mammogram), then the questions can be answered as NO.
- Hospitalized means being admitted as an inpatient. Observation or treatment as an outpatient in the hospital without admittance is not considered a hospitalization.
- The applicant is not eligible if there is a history of memory loss.
- Even if the applicant is not taking any medication, the applicant is ineligible for coverage if diagnosed with any condition listed in the health question number 19 (may be a different number depending on the state version.)
- Taking a maintenance medication is considered treatment. Medications such as tamoxifen (Nolvadex/Solfamox) or anastrozole (Armidex) given after breast cancer treatment was completed are usually used as preventive rather than treatment of the disease and can be considered for coverage.
- With respect to high blood pressure, diuretics ("water pills") are considered treatment. If a diuretic is manufactured with another medication as one pill, it is counted as two medications.
- Heart disease includes heart attack, myocardial infarction, valve disease, coronary disease, angina, atrial fibrillation or other heart rhythm disorders, cardiomyopathy, congestive heart failure, enlarged heart, heart bypass, stent placement, angioplasty or pacemaker or defibrillator.
- An applicant who has diabetes (treated with insulin, non-insulin or by diet) who has complications of neuropathy (nerve damage), retinopathy (eye problems) or chronic kidney disease, is not eligible for coverage.
- The applicant is not eligible for coverage if taking more than 50 units of insulin (51 or more) per day, or is taking 3 or more medications (insulin-any amount- or non-insulin) to treat diabetes.
- It is important that not only the medications be given on the application, but the reason why the medications were prescribed. Please give the reason (diagnosis) why the medication was prescribed, not what the medication does (e.g., Plavix due to heart attack, not because it thins the blood.)
