Selecting the right Medicare supplement plan can be confusing. We're here to give you the confidence boost you need. We'll start by getting to know you. We'll uncover your needs and talk about what you want out of life. And together, we'll find the Medicare supplement plan that's perfect for you.

What a Medicare Supplement Can Do for You

With a Medicare supplement insurance policy, even unexpected medical events aren't likely to impact your financial wellbeing. While Medicare covers a good portion of your health care expenses, you still have out-of-pocket costs, like deductibles, copayments and coinsurance. See how a Medicare supplement insurance policy can help to pay these costs.

Medicare Part A

Hospital Insurance

Medicare Part A provides coverage for hospital inpatient care, recovery care in a skilled nursing facility, hospice care and limited home health care.

Your out-of-pocket costs include the Medicare Part A benefit-period deductible and coinsurance for the services you receive.

Medicare Part B

Medical Insurance

Medicare Part B covers medically necessary and preventive services provided by doctors and other health care providers.

Your out-of-pocket costs include the Medicare Part B calendar-year deductible, coinsurance for services you receive and any charges that exceed the Medicare-approved amount.

Medicare Supplement Insurance

Pays What Medicare Doesn't

Adding a Medicare supplement insurance policy can help by paying some of the out-of-pocket expenses not paid by Medicare Part A and Medicare Part B. And, you can be confident that as these costs increase, your Medicare supplement insurance policy benefits also increase to help you pay your share of Medicare expenses.

How Your Medicare Supplement Works

Your Medicare supplement insurance policy works with Medicare Parts A and B to minimize your share of health care costs. When you receive a covered service, your health care provider bills Medicare. After Medicare pays its share, your Medicare supplement insurance policy pays based on the plan you select. The entire process is electronic, so your claims are paid quickly.

Your Plan Choices

With a variety of Medicare supplement plans that offer varying levels of coverage, you're able to select the one that best meets your needs and fits your budget.

Determining Which Plan is Right for You

When determining which plan is right for you, think about what you would like your plan to cover. Remember there may be charges above what Medicare and your Medicare supplement insurance policy pay, so be sure to consider how much you can comfortably afford to pay for any remaining out-of-pocket expenses.

Plan A

Provides the most basic coverage of all Medicare supplement plans.

Plan G

Covers all Medicare-eligible expenses except the Medicare Part B deductible.

High-Deductible Plan G

Provides the same coverage as Plan G, but requires payment of deductibles, coinsurance and copayments up to the policy's deductible amount.

Plan N

Offers low premiums in return for copayments for some doctor and emergency room visits.

If you want a plan that pays:	You may want to consider:

Policy Benefits Explained

Medicare Part A – Hospital Insurance

Inpatient Hospital Deductible

This is the amount you must pay before you are eligible to receive Part A benefits under your Medicare supplement insurance policy. You're responsible for paying the Part A deductible for each benefit period, which begins the first full day you're hospitalized and ends when you haven't been in a hospital or skilled nursing facility for 60 consecutive days. Medicare supplement Plans G, High-Deductible G and N cover this cost.

Coinsurance

This is the amount you may be required to pay as your share of the cost for hospital services after you have paid your Part A deductible. Medicare pays 100 percent of Part A coinsurance for the first 60 days of inpatient hospital care plus a portion of the coinsurance for days 61 through 150. All Medicare supplement plans pay the remaining Part A coinsurance amount.

Extended Hospital Coverage

Should you need to be hospitalized longer than 150 days during a benefit period, and you've exhausted your 60 Medicare Lifetime Reserve Days, all Medicare supplement plans will pay eligible expenses at the rate Medicare would have paid, subject to a lifetime maximum benefit of an additional 365 days.

Benefit for Blood

Medicare pays for blood, excluding a calendar-year deductible equal to the cost of the first 3 pints. All Medicare supplement plans pay the cost for the first 3 pints.

Skilled Nursing Facility Care

Medicare pays 100 percent for the first 20 days in a skilled nursing facility that follow a hospitalization of at least 3 days and all but a portion of the cost or days 21-100. Medicare supplement Plans G, High-Deductible G and N pay the remaining coinsurance amount.

Hospice Care

Medicare pays all but \$5 of the cost for each outpatient prescription drug used in a hospice

setting for pain and symptom management. In addition, Medicare pays all but 5 percent of the cost for short-term hospice care given by another caregiver to provide a break for the usual caregiver. All Medicare supplement plans pay the rest.

Medicare Part B – Medical Insurance

Deductible

This is the amount you must pay before you are eligible to receive Part B benefits under your Medicare supplement insurance policy. Medicare does not cover the Part B calendar-year deductible.

Coinsurance

This is the amount you may be required to pay as your share of the cost for doctor visits after you have paid your Part B deductible. Medicare pays 80 percent of eligible expenses. All Medicare supplement plans pay the remaining coinsurance amount. With Plan N, you pay up to a \$20 copayment for some office visits and up to a \$50 copayment for emergency room visits.

For hospital outpatient services, the copayment amount will be paid under a prospective payment system. If this system is not used, then 20 percent of eligible expenses will be paid.

Excess Benefits

If your bill for Medicare Part B services and supplies exceeds the Medicare-approved amount, Medicare supplement Plans G and High Deductible G pay the resulting excess charges up to the charge limitation established by Medicare.

Benefit for Blood

Medicare pays for blood, excluding a calendar-year deductible equal to the cost of the first 3 pints. All Medicare supplement plans pay the cost for the first 3 pints.

Additional Benefit

Emergency Care Received Outside the U.S.

After you pay a \$250 calendar-year deductible, all Medicare supplement plans, with the exception of Plan A, pay 80 percent of eligible expenses for health care you need because of a covered injury or illness that begins during the first 60 days of each trip. Pays up to a lifetime maximum of \$50,000.
