EXPEDITED UNDERWRITING

Expedited Underwriting is offered with the Western United Life Electronic Application (commonly known as the App). It is only available for underwritten applications that have been completed and submitted. A pop-up display screen directs you to call the toll-free number, 1-800-982-0415; the applicant must be on the telephone call to complete the process. An underwriter will access the application and complete the process on the spot; if a phone history interview is necessary, the agent will be asked to disconnect from the call. If all underwriting criteria is met, the applicant will be provided their policy number and information pertaining to the first draft. The feature is available during normal business hours, which are 8:00 A.M. to 5:00 P.M. Central Standard Time. Applicants must call in the same business day of submission. If the application is submitted outside of normal business hours, you may call the next business day to complete the process.

PURPOSE

This Guide provides information about the evaluation process utilized in underwriting and issuing Western United Life Medicare Supplement insurance policies. The goal of Western United Life is to issue insurance policies as quickly and efficiently as possible, while ensuring proper evaluation of each risk. To accomplish this goal, writing agents may be contacted via email to advise him/her of any problem(s) with an application. Please make sure we have your current email address on file.

POLICY ISSUE GUIDELINES

All applicants must be covered under Medicare Part A & Part B. The policy issued is specific to the state of residence. The applicant's state of residence controls the application, forms, premium, and policy issue. If an applicant has more than one residence, the state where the federal income taxes are filed should be considered the state of residence. Please refer to your introductory materials for required forms specific to your state.

SELECTIVE ISSUE

Applicants over the age of 65 and at least six (6) months beyond enrollment in Medicare Part B will be underwritten. All health questions must be answered, including providing all prescription history on the application. The answers to the health questions on the application will determine eligibility for coverage. Please note that a "Yes" answer to any of our health history questions MAY result in denial of coverage (see page 9 for further details).

OPEN ENROLLMENT

To be eligible for Open Enrollment, an applicant must be at least 64½ years of age (in most states) and be within six (6) months of enrollment in Medicare Part B.

Applicants covered under Medicare Part B prior to age 65 are eligible for a six (6) month Open Enrollment period upon reaching age 65.

APPLICATION DATES

- Open Enrollment is up to six (6) months prior to and six (6) months after the month the applicant turns 65.
- West Virginia applications can only be taken up to 90 days prior to the month the applicant turns age 65.
- Underwritten cases may be submitted up to 60 days prior to the requested coverage effective date.
- Individuals whose employer group plan health coverage is ending can apply up to 60 days prior to the requested effective date.

REPLACEMENTS

A replacement takes place when an applicant wishes to exchange an existing Western United Life or Manhattan Life Supplement policy for either another Western United Life or Manhattan Life Medicare Supplement policy of lesser or greater value, a Family Life Medicare Supplement policy, or a policy with an external company. Internal and external replacements are processed in the same manner and both require a newly completed application with full underwriting. An applicant that wishes to be reconsidered for the household discount will be handled as an internal replacement. For internal replacements, we will use the same underwriting criteria; however, we will also use our claims database to assist in determining the risk of an applicant.

All replacements must include a completed "Replacement Notice" form. One copy is to be left with the applicant, and one copy should accompany the application.

FLIC/MLIC to WULA replacements where the writing agent is not the same, the new writing agent will receive 50% commission on open enrollment and underwritten business. FLIC/MLIC to WULA replacements where the writing agent is the same on both applications, we will conserve the duration of the policy, and the compensation will be determined based on the new commission schedule for WULA.

***Agents will not be paid advanced commissions when replacing a FLIC/MLIC policy with a WULA policy.**

TELEPHONE INTERVIEWS

Random telephone interviews may be conducted at any time at the discretion of the underwriter. Please be sure to advise your clients that we *may* be contacting them to conduct an interview and/or to verify information on their application. Applications submitted electronically through the Western United Life website will require a telephone interview to verify that the information submitted is accurate. For Open Enrollment and Guarantee Issue electronic applications, health questions *will not* be asked of the applicant. Health interviews must be completed with the applicant on any underwritten applications involving a Power of Attorney. If we are unable to complete the telephone interview, we will require two years of current medical records to be submitted at the applicant's expense.

*Please be aware that agents and/or an agent's representative may not be present or on the line while a phone interview is being conducted.

ALL underage applicants will be subject to a telephone interview to determine eligibility. Regardless, if clean prescription history and applications. All questions must be reviewed in detail, and cause of disability eligibility must be obtained. The proposed insured will be declined if disabled due to a condition noted on the application.

PHARMACEUTICAL INFORMATION

Western United Life has implemented a process to support the collection of pharmaceutical information for underwritten Medicare Supplement applications. In order to obtain the pharmaceutical information, the Authorization and Certification section (found on page 5) must be signed by the applicant. Prescription information noted on the application will be compared to the additional pharmaceutical information received. This additional information will not be solely used to decline coverage.

For purposes of determining GI eligibility due to a voluntary termination of an employer sponsored group welfare plan, a reduction in benefits will be defined as any increase in the insured's deductible amount or their coinsurance requirements (flat dollar co-pays or coinsurance %). A premium increase without an increase in the deductible or coinsurance requirement will not qualify for GI eligibility. This definition will be used to satisfy OK, and WV requirements. Proof of coverage termination is required.

APPLICATION PART II – MEDICAL COVERAGE REPLACEMENT

- The applicant must be covered under Medicare Part A & Part B to be eligible for a Medicare Supplement policy. Applications may be submitted for applicants that have just enrolled in Medicare Part B even though they have not yet received their Medicare ID card.
- The Medicare Number must be given (unless not yet available). This number is crucial for the proper processing of claims.
- The Part B enrollment date must be provided, as it is used to determine if the applicant is in an Open Enrollment period.
- If the applicant is covered by the Medicaid-QMB program, the applicant is not eligible for coverage. The application will be withdrawn.
- If the applicant is covered by the Medicaid-SLMB program, there are no special restrictions on buying a Medicare Supplement policy. If the applicant is covered by a program other than Medicaid-SLMB, additional documentation or information is required to determine whether the applicant can purchase a Medicare Supplement policy.
- Question 2 pertains to the replacement of a Medicare Advantage, Medicare PPO/HMO policy or certificate. If an applicant is replacing a Medicare Advantage plan, proof of creditable coverage from the Medicare Advantage plan will be required at time of application. The documentation must confirm that the applicant has been disenrolled or will be disenrolled by the requested effective date of the Western United Life plan, as coverage cannot overlap. Western United Life cannot issue a policy without this information. If the answer to this question is not clear, or the required replacement form is not included, new forms will be requested.

- Question 4 pertains to coverage under any other health insurance within the past 63 days (for example, an employer, union, or individual plan). An applicant will not be allowed to maintain a group plan, as Western United Life does not allow an applicant to be double covered.

Proof of credible coverage is required at the time of application. The documentation must confirm that the coverage either has been terminated or will be terminated by the requested effective date of the Western United Life plan. Western United Life cannot issue a policy without this information. If the answer to this question is not clear, new forms will be requested.

HEALTH QUESTIONS

Unless an application is completed during an Open Enrollment or Guarantee Issue period, all health questions, including the question regarding prescription medication, must be answered. The tobacco question may need to be answered during an Open Enrollment or Guarantee Issue period in some states; please see the chart on page 15 to determine if this applies to your applicant.

In general, if an applicant answers “Yes,” to any health question, they **may** not be eligible for coverage. There are situations in which coverage may be offered. If the following questions are answered “Yes,” an applicant **may** be considered for coverage:

- *“Have you been advised by a physician to have surgery, medical tests, treatment or therapy that has not been performed?”*
- *“Have you had a surgical procedure performed within the last 6 months?”*
- *“Are you diabetic, and if so, do you have or have you been treated for any of the following conditions: diabetic retinopathy, peripheral vascular disease, kidney disease, kidney failure, neuropathy, stroke, congestive heart failure, heart condition, or high blood pressure treated with more than two medications?”*

Consideration for coverage may be given to those who have been advised to have **routine/preventative** medical testing

Routine/Preventative testing evaluates an individual’s **current** health when the applicant is symptom free. Consideration will be given to applicants that are currently undergoing routine blood testing for cholesterol and thyroid.

Individual consideration may be given to applicants undergoing Prothrombin (protime) testing. Applicants currently undergoing anticoagulant therapy (blood thinner) must have met the necessary timeframes for the specific condition for which the medication is currently being used.

Individual consideration for applicants who have undergone a recent, minor surgical procedure will be given once all follow up appointments have been completed and the applicant has been fully released from their physician’s care. Timeframes for specific conditions must have been met for consideration.

Consideration for coverage may be given to those persons with well-controlled cases of diabetes with hypertension. A case is considered well-controlled if the person is taking less than 50 units of insulin daily, **or** no more than two oral medications for diabetes and no more than two medications for hypertension. A combination of less than 50 units of insulin and one oral medication would be the same as two oral medications. In general, to verify stability, there should be no changes in the medications or dosages for at least two years. We consider hypertension stable if recent average high blood pressure readings are 150/85 or lower.

People with diabetes mellitus that require, or have ever required, more than 50 units of insulin daily, or people with diabetes (insulin dependent or treated with oral medications) who also have one or more of the complication conditions listed below, are not eligible for coverage. For the purposes of this application, hypertension (high blood pressure) is not considered a heart condition.

Diabetic complications that would not be considered are: Diabetic retinopathy, peripheral vascular disease, kidney disease, kidney failure, neuropathy, stroke, congestive heart failure, heart condition, or high blood pressure treated with more than two medications. Some additional questions to ask your client to determine if he/she has a complication include:

- ✓ Does he/she have eye/vision problems?
- ✓ Does he/she have numbness or tingling in the toes or feet?
- ✓ Does he/she have problems with circulation or pain in the legs?

The above list of conditions/situations where individual consideration may be given is not all inclusive. If your client has a situation that falls within the above listed questions, and additional clarification is needed, please call our underwriting department to discuss the details.

If there has been no usage of any form of tobacco in the past twelve months, the Preferred (non-tobacco) premium should be noted.

Tobacco Reconsideration

For policyholders that wish to have a current policy re-rated to reflect Preferred Premium rates, the policy must be in effect for a minimum of twelve (12) consecutive months before reconsideration will be permitted. The policyholder will then be required to submit a new application and will be subject to underwriting. Tobacco reconsideration will be handled as an internal replacement. If replacement coverage is denied, the standard (tobacco rates) will remain.

Sample Rate Calculation:

Preferred (non-tobacco) Premium Rate Sheet

Issue Age	Plan A		Plan B		Plan C	
	Male	Female	Male	Female	Male	Female
67	953	829	1,160	1,009	1,321	1,148
68	996	867	1,212	1,054	1,380	1,200

Discount to be calculated as follows:

Annual premium x 0.93 (7% discount) = discounted Annual premium times the modal factor.

Applicant #1: Female

Non-tobacco user, age 67, applying for plan B

Annual premium	$\$1,009 \times 0.93 = \$938.37 =$	\$938.37 Final Annual Rate
Semiannual premium	$\$1,009 \times 0.93 = \$938.37 = \$938.37 / 2 =$	\$469.19 Final Semiannual Rate
Quarterly premium	$\$1,009 \times 0.93 = \$938.37 = \$938.37 / 4 =$	\$234.59 Final Quarterly Rate
Monthly premium	$\$1,009 \times 0.93 = \$938.37 = \$938.37 / 12 =$	\$78.20 Final Monthly Rate

Note: After modal premium is calculated add the state specific one-time policy fee, if applicable.

TYPES OF MEDICARE POLICY RATINGS

- Community-rated: the same monthly premium is charged to everyone who has the Medicare policy, regardless of age. Premiums are the same no matter the age of the applicant. Premiums may increase because of inflation and other factors, but not based on age.
- Issue rated: the premium is based on the age the applicant is at the time the policy is purchased. Premiums are lower for applicants who buy at a younger age and will not change as they get older. Premiums may increase because of inflation and other factors, but not because of the applicant's age.
- Attained age: the premium is based on the applicant's current age so the premium increases as the applicant gets older. Premiums are lower for younger buyers but increase as they get older. In addition to change in age, premiums may also increase because of inflation and other factors.
